Straws

REUSABLE straws combine polypropylene (PP) with Tritan™ copolyester. They are stronger and more resistant to mechanical damage than ordinary disposable straws. Tritan™ offers high impact resistance, is suitable for repeated dishwasher cleaning, contains no BPA (bisphenol A) and is 100% recyclable.

The RIBBY collection immediately catches the eye with its perfectly symmetrical relief, combining visual appeal with a distinctive tactile texture. Its timeless design lends individual character to every presentation.

Thanks to its versatility, RIBBY is equally at home in everyday dining and on special occasions.

Designed by Miroslav Machek, the STARS collection stands out for its delicate relief and precisely crafted details. The subtle surface texture gives every piece a distinctive character and highlights its timeless elegance. Refined design, premium workmanship and practical functionality make STARS an ideal choice for professional hospitality and formal table settings alike.

Frying pans and roasting dishes

AMT products feature a Lotan non-stick surface with an antibacterial effect. A mineral-reinforced layer provides high abrasion resistance, while an anti-corrosion layer protects against aggressive detergents and fruit and acetic acids. The titanium-oxide layer is almost as hard as diamond, heat-resistant up to 240 °C and exceptionally resistant to scratching and cutting.

Knives TREND

KIDS SEDLČANY
NOŽÍRSKÉ VÝROBNÍ DRUŽSTVO

TREND kitchen knives stand apart through their use of premium steel alloyed with molybdenum and vanadium. These elements increase blade life and hardness. The handle scales are securely riveted to the tang, preventing the blade from breaking away from the handle. TREND knives are designed for demanding users who value quality.

Item No.	Product	price

Knives PROFI LINE

The PROFI LINE knives are also suitable for demanding customers and meet today's high hygiene requirements. They are suitable for professionals, but they can also be used in the kitchen of ordinary households. Their blades are made of high-quality stainless steel with molybdenum and vanadium, which extends the service life of the blade and allows for higher hardness. Modern ergonomic handles reduce workload.

100030928	3-stage knife sharpener	379,00
-----------	-------------------------	---------------

Ideal for users without experience of sharpening with a honing steel or whetstone. Designed for quick everyday sharpening. Sharpening stages:

1 - Diamond: Blade grinding and forming, necessary preparation for very blunt knives

2 - Toughened tungsten:
creates the ideal cutting-edge angle

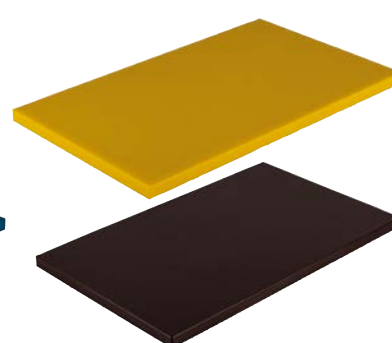

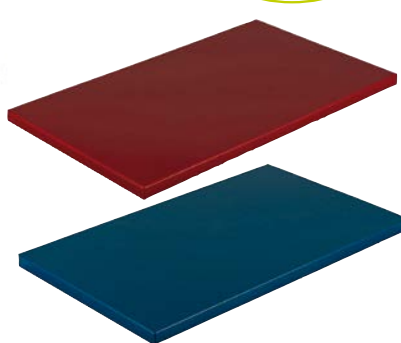

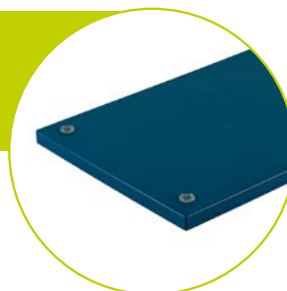

3 - Ceramic stone:
fine honing for optimum sharpness

Buffet system

Buffet set of 8 modules - brown beech

illustrative image

Buffet set of 8 modules

An elegant beechwood modular system for modern breakfast and buffet service. A base frame and upper frame accommodate interchangeable GN 1/1 inserts. The system expands vertically and horizontally to create an organised display and professional service.

The set includes: 1 x chilled module with cover – 2 frames; 1 x neutral module with cutting board – 1 frame; 1 x heated module with 3 x GN 1/3-65 mm and cover – 3 frames; 1 x module with slate board – 1 frame; 1 x heated module with soup insert – 3 frames; 1 x neutral module with stainless-steel GN 1/1-20 mm tray – 1 frame; 1 x module with 4 cutlery baskets – 2 frames; and 1 x module with 2 x 20 cm and 2 x 12 cm bowls – 1 frame.

Available in light beech, dark-brown stained or black-stained finishes. The price is for the complete set.

Total length: 232 cm, total width: 81 cm.

Disposable tableware / food packaging / films

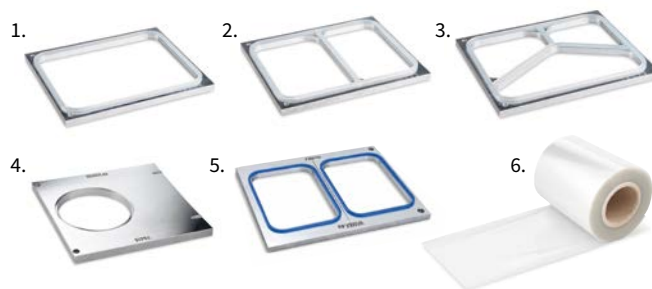

Sealing system

A robust, reliable tray sealer with simple controls. Its stainless-steel construction is easy to maintain. Sealing plate temperature is electronically controlled via a digital panel. Interchangeable sealing frames accommodate single-, 2- and 3-compartment trays.

Spare parts are available for repairs during and after the warranty period.

Sealing frames for food trays

The AI symbol indicates an illustration photograph that has been created or substantially modified using artificial intelligence.

SUGAR CANE (bagasse) – a natural material made from the fibrous residue left after sugar-cane pressing. Strong and durable, it is suitable for disposable tableware and food packaging.

HDPE (high-density polyethylene) – a rigid plastic with high resistance to impact, moisture and chemicals. Used for bottles, jerrycans, crates and other packaging.

LDPE (low-density polyethylene) – a lightweight, flexible plastic with good resistance to moisture and chemicals. Primarily used for films, bags and flexible packaging.

NITRILE – a synthetic, natural-latex-free material with high strength, flexibility and resistance to chemicals and mechanical damage. Primarily used for disposable protective gloves.

PAP FSC® – paper or board made from wood sourced from responsibly managed, FSC®-certified forests. This material supports sustainable forestry and responsible use of natural resources.

PET (polyethylene terephthalate) – a strong, transparent plastic with excellent mechanical properties. Mainly used for bottles, cups and packaging for cold foods.

PP (polypropylene) – a lightweight, durable plastic with high strength and good heat resistance. Suitable for food-contact packaging and containers.

PS (polystyrene) – a lightweight, rigid plastic suitable for disposable tableware, cups and packaging. It offers good dimensional stability at low weight.

VINYL (PVC – polyvinyl chloride) – a flexible, comfortable synthetic material used mainly for disposable protective gloves and suitable for routine tasks.

• For items marked in this way, Sahm s.r.o. pays the relevant fees to EKO-KOM, a.s. in accordance with Act No. 477/2001 Coll. on Packaging, as amended by Act No. 244/2022 Coll. Take-back and litter clean-up fees are included in the price.

XPP (expanded polypropylene) – a lightweight, strong and reusable material with excellent thermal-insulation properties. Impact-resistant and suitable for transporting and holding both hot and cold food.

XPS (extruded polystyrene) – a lightweight, rigid material with good thermal-insulation properties. Primarily used for food trays, bowls and packaging.
